Admission Campus Visitors to the Tuck School of Business

In order to visit the Tuck School of Business, we ask that you help us keep our campus safe and to allow us to remain open to visitors. In doing so, we recommend masking before, during, and after your travel to campus to limit exposure to yourself and the Tuck community.

We ask that you observe our recommended vaccination and masking details below. Should you have any questions, please connect with the Office of Admission prior to registering for your campus visit.

Vaccinations
Dartmouth recommends that all visitors 5 years of age or older:

- Are up to date on their COVID-19 vaccinations, including getting a booster dose within 30 days of becoming eligible; OR
- Receive a negative test result from a COVID-19 test (PCR or rapid antigen) taken within 72 hours prior, preferably as close to access as possible; OR
- Have tested positive for COVID-19 within the 90 days prior and recovered (i.e., they have ended isolation and do not have symptoms).

Masking
- Face masks are welcome and encouraged on campus as a visitor to campus. At Tuck, we encourage community members to use a mask when in large groups indoors or close quarter situations and ask the same of our campus visitors.
- It remains best practice to always keep a face mask with you. Face masks, including KN95s, are available at the admission office when you check-in for your campus visit.

After your Visit
- Visitors who develop symptoms or test positive for COVID-19 while at a Dartmouth location or event, or within 48 hours of being at Dartmouth, should isolate immediately and follow the U.S. Centers for Disease Control and Prevention’s (CDC) isolation guidance. The visitor should also inform their close contacts. For COVID-19, a close contact is anyone who was less than 6 feet away from you for a combined total of 15 minutes or more over a 24-hour period. If identified as a close contact, visitors should wear a face mask, limit close contacts with others, contact their primary care provider, and follow the CDC’s quarantine guidance.

Additional Details
Visitors must not access a Dartmouth location or Dartmouth-sponsored in-person event if:

- They are in isolation or quarantine;
- They are experiencing symptoms consistent with COVID-19 including the following:
  1. A fever of 100.4 degrees Fahrenheit or higher, or felt feverish in the last 72 hours;
  2. New respiratory symptoms including a runny nose, nasal congestion, sore throat, cough, or shortness of breath;
  3. General body symptoms such as new muscle aches, chills, or severe fatigue;
  4. New gastrointestinal symptoms such as nausea, vomiting, or diarrhea;
  5. Any new change in their sense of taste or smell.
- Visitors can find more information on accessing COVID-19 tests through the New Hampshire and Vermont public health departments or visitors can use a self-test kit.
